

TRUST ACCOUNT

OVERVIEW GUIDE

01.

A trust is the most comprehensive way to protect your assets and loved ones. It allows you to avoid probate court and enables your assets to transfer seamlessly to your beneficiaries tax free. There are various types of trusts, with the primary distinction being whether they are revocable or irrevocable. A Revocable Trust can be revoked and modified at any time, as long as you are alive and of sound mind. In contrast, an Irrevocable Trust cannot be easily amended, changed, or terminated once it is signed.

If you have yet to establish a trust, consider consulting an estate planning attorney.

02.

GETTING PREPARED:

- Trust Agreement or Trust Certificate.
- EIN Letter: Issued by the IRS, used for tax reporting. (The Grantor's SSN can be used if the trust is revocable).

All trusts must designate a Successor Trustee to proceed. For the trust to qualify for NCUA insurance, it must list designated beneficiaries.

03. LET'S GET STARTED:

Once you have collected the necessary documents mentioned above, let's begin the process of opening the Trust account.

Please visit one of our Engagement Centers, contact us by phone or use live video banking to schedule a virtual consultation with an Account Specialist and to submit any account opening documents you have collected, as this will help expedite the process.
